ADVANCED PHARMACY REFRIGERATORS

FOR STORAGE OF PRODUCTS AT 2°C - 8°C

STABLE REFRIGERATED STORAGE

Medicines which need to be stored in a refrigerated environment must be stored between 2°C and 8°C in a pharmaceutical grade refrigerator.

Our comprehensive range of pharmacy refrigerators are specifically designed for this purpose and meet all UK legislation.

Available in 10 capacities from **30 litres** to **1390 litres** and a choice of glass or solid doors in models up to 400 litres, there is a refrigerator to suit every requirement.

FEATURES

- Digital Display Controller
- Alarms for Minimum/ Maximum Temperature, power failure and door open
- Simulated core load temperature logger
- 5 year warranty
- Eco Friendly Refrigerants
- Door locks

Contact us to discuss your requirements and specification or to request further information.

OUR PHARMACY RANGE

Our complete range of temperature controlled pharmacy storage solutions are the ideal solution for pharmacies, care homes, clinical trials and indeed any area where there is a need to manage the temperature of medicines and drug storage to meet current legislation, maximise efficacy and preserve shelf life.

CONTROLLED ROOM TEMPERATURE (CRT) CABINETS

These are our CRT versions of our advanced pharmacy refrigerators and are designed to reliably store non-refrigerated medicines below 25°C as specified by manufacturers of 'store at room temperature' medicines and drugs

- There are 10 sizes available from 30 litres to 1390 litres
- These cabinets are ideal for medicines storage in clinical trials as well as pharmacy, hospital, health and social care settings.

MED-CRT CABINETS

These wall mounted cupboards are an alternative to the freestanding CRT style cabinets. The cooling system correctly monitors, controls and maintains the temperature below 25°C in warm weather.

There are various sizes available.

Larger models can also be fitted with an inner cupboard for Controlled Drugs (MED-CRT/CD models).

CD-CRT CABINETS

Designed specifically to store Controlled Drugs below 25°C as required by BS2881:1989 and all Misuse of Drugs legislation.

The cooling system correctly monitors and maintains the temperature below 25°C.

There are 5 sizes available between 27 litres and 196 litres.

All must be wall mounted.

CD CABINETS

Our extensive range of controlled drugs cabinets are manufactured in the UK and all conform to BS2881: 1989 (Security Level One).

This is the specification for Cupboards for the Storage of Medicines in Health Care Premises. Furthermore, meets or surpasses the requirements of the "Misuse of Drugs (Safe Custody) Regulations 1973". This is the requirement in the UK for the storage of controlled drugs.

Available in a large range of capacities from 8.7 litres up to 400 litres and constructed from a minimum 1.5mm thick cold reduced mild steel sheet with 3mm thick anchor plates at all fixing points and a fully welded construction. All feature an Anti-Jimmy folded return down full length of hinge side of door.
